

***Alte Nervenlinik* / Clinic of Neurology on Campus Charité Mitte (CCM)**

The lecture will take place in the Clinic of Neurology, CCM, marked yellow on the map below. The most convenient entrance to the Campus is the one from Luisenstraße (arrow D).

There is a passage under the building numbered 9 on the map, which will lead you directly to it.

Arrivals by train

From **central station** (Berlin Hauptbahnhof) you can walk to the building in about 15 minutes: Leave the station at the exit Invalidenstraße, turn right and walk down the road (across the river) towards the city center following the black arrow. Turn right as indicated until you get to Luisenstraße which will take you to the most convenient entrance (see above).

You can also take bus 245 or 340 from the station to Invalidenpark, cross the little piece of barren land and enter the Campus on Hannoversche Straße (arrow E).

From **Friedrichstraße** (S-Bahn station or subway) take bus 147 to Luisenstraße/Charité. Cross the street and enter through the entrance marked arrow D on the map.

Arrivals by plane

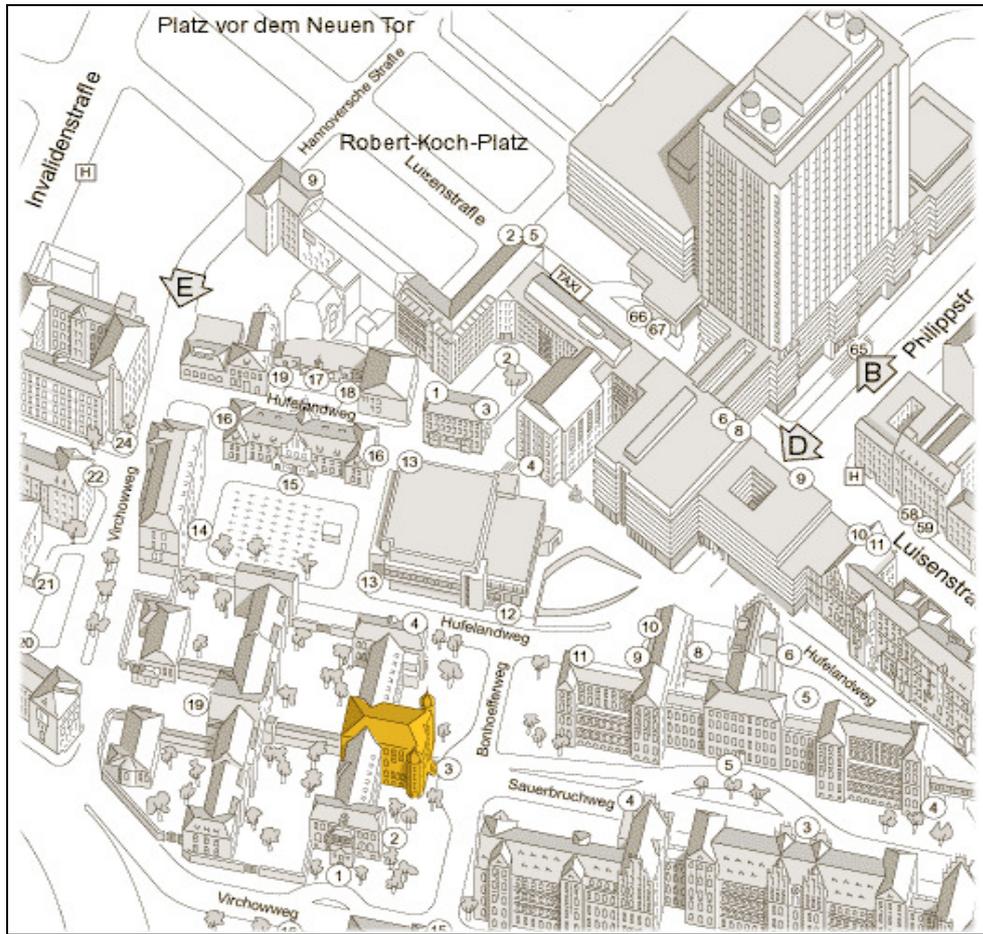

From **Schönefeld airport** take the S-Bahn to Friedrichstraße and proceed as described.

From **Tegel airport** take the express bus TXL to Hauptbahnhof and proceed as described. Or you can take the bus to subway station Kurt-Schumacher-Platz (U6). Get on the train in direction Alt-Mariendorf and get off at Zinnowitzer Straße. Walk down Invalidenstraße for about 500m to Platz vor dem neuen Tor (enter at arrow E). The one way ride by regular bus or U-Bahn is €2.10,

A cab ride from Tegel airport takes about 20 minutes and costs approx. €15. From Schönefeld expect about triple the time and price. Tell the cab driver to take you to Charité Campus Mitte (there are two other Charité campuses!), and to pass through the entrance at Schumannstraße 20/21. The cab can drop you off right in front of our building.

Generally, you can always orient yourself by heading for the high-rise building with the Charité sign on top, widely visible across town (building 65 or arrow B)!

Print out these directions, and take them with you!
